DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 10-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Bethurum (US 5,477,426).

Regarding claim 10, Bethurum discloses a connector comprising: a plug housing 12, 14 including a back face; a cover housing 62 combined with the plug housing; and a circuit board 50 held by both the housings; wherein the cover housing includes a protruding section (at 62) configured to attach to the cartridge of electronic parts (using an adhesive, for example).

Regarding claim 11, Bethurum discloses the invention substantially as claimed but does not disclose a cartridge of toner. It has been held that a recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus satisfying the claimed structural limitations. *Ex parte Masham*, 2 USPQ2d 1647 (1987).

Regarding claims 12 -14, Bethurum disclose the circuit board including a memory.

Art Unit: 2833

Claim 13 has not been given patentable weight since the "information" is not positively recited.

Allowable Subject Matter

Claims 1,2 and 4-9 and 15-24 are allowed.

The following is an examiner's statement of reasons for allowance: claim 1 has been amended to incorporate the allowable subject matter of claim 3, as indicated in paper no. 8; claims 15-20 have been amended to overcome the rejections under 112; and claims 21 and 22 contain the allowable subject matter of claims 2 and 6, in independent form. Claim 24 recites the limitation of "an exposed end of a lead section of the at least one contact...and exposed ends of leads of an IC chip... [being] substantially flush with each other." Prior art fails to teach this limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

Applicant's arguments filed 8/7/02 have been fully considered but they are not persuasive. Applicant contends that Bethurum does not disclose a cover housing including a protruding section. However, as seen in Fig. 2, the cover does, in fact, have

Art Unit: 2833

a protruding section. In addition, the column and line numbers that Applicant makes reference to do not correspond to the discussed subject matter.
